The collection of medals (holes and loops) in the Renaissance Italy

by S.SANDULL

Abstract: The cultural art of the Italian Renaissance is an argument not only of paint but also of medals especially in the period of 15-16 centuries. Who are these medals, the physical evidence and their use, their relationship as symbols of the Italian Renaissance are some of the arguments of discussion of the present paper.

Key words: Italian Renaissance, modern art, medals, history of art.
