The art of netherlands as a contemporary type of art

by S.VOETEN

Abstract: The paint of Netherlands in the contemporary art is a section of artists that works in contemporary art through tradition and spaces of modernity. The conceptual work as an analytical image is proposed from some authors in the essential pieces of painting, however, it began to struggle the status of art in the contemporary sense of art.

Key words: contemporary art, Netherlands art, type of art, space of modernity, essential pieces of paint.
